

F22 2-way corner C21 90° H

F22C21H

2-way corner

horizontal

90° angle

Pipe diameter: 35 mm

Wall thickness: 1,6 mm

RRP (incl. VAT): 65,00 €

The F22 truss series by Global Truss is a TÜV approved 2-point system with an external dimension of 22cm. The series is perfect for small constructions with a low load for exhibition stands and permanent installations. A maximum span of up to 7 meters can be used.

Ä

The F22 truss is built with 35 x 1.6mm main tubes and 8mm diagonal braces of aluminium. The truss lengths are connected with the included conical connectors. This truss and all other Global Truss series can be powder coated in every RAL colour.
