2.Mechanical Specification

3.Introduction

The AC02 is a control box with the light controller. Its color is black in the plastic material. And the power supply unit is provided by the external switching power supply. The protection class reach the "IP20". The control box is used in the -20°c~40°c. So, it can be installed indoor environment. AC02 has won many certifications, including the CE, ROHS, 3C and so on. Besides, it can control the light through the console.

Power Set Up

Your cables should be made with a male and female connector on either end of the cable. Also remember that power cable must be daisy chained and cannot be split.

Notice: Be sure to follow figures two and three when making your own cables. Do not use the ground lug on the XLR connector. Do not connect the cable's shield conductor to the ground lug or allow the shield conductor to come in contact with the XLR's outer casing. Grounding the shield could cause a short circuit and erratic behavior.

9.CABLE CONNECTORS

Cabling must have a male XLR connector on one end and a female XLR connector on the other end.

DMX connector configuration

caution: Do not allow contact between the ground and the fixture's chassis ground. Grounding the ground can cause a ground loop, and your fixture may perform erratically. Test cables with an ohm meter to verify positive pole and to make sure the pins are not grounded or shorted to the shield or each other.

3-PIN TO 5-PIN CONVERSION CHART

Note! If you use a controller with a 5 pin DMX output connector, you need to use a 5 pin to 3 pin adapter. The chart below details a proper cable conversion:

3-PIN TO 5-PIN CONVERSION CHART

Conductor	3 Pin Female (output)	5 Pin Male (Input)
Ground/Shield	Pin 1	Pin 1
Data (-) signal	Pin 2	Pin 2
Data (+) signal	Pin 3	Pin 3
Do not use		Do not use
Do not use		Do not use

DMX connection

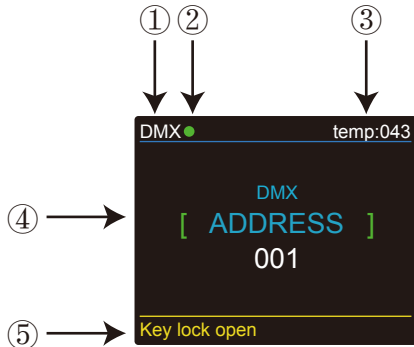

Connect 40units lights with controller, set all channels are same.

4. Technical data

- Material: Plastic
- Colour: Black
- Max Power: 5W
- Input voltage: DC 110-230V
- Control Channels: 1,3,4,7 channel
- Power supply unit: External switching power supply
- Electronically reversible: Radio Remote
- Connection: Power input and output, DMX 3 pin XLR input and output
- Protection class: IP20
- Working temperature: -20°C~40°C
- Installation: Indoor environment
- Dimensions: 169×97×58.2mm
- N.W.: 0.6kg
